

MOBILE CHANDELIER 5, 2011

Black Patinated Brass.
Mouth blown opaline sphere.

OVERALL DIMENSIONS

MATERIALS AND FINISHES

MA-MC5-B
Black Patinated

Custom Patina available

BULB SPECIFICATIONS

Integrated LED, 9W for Ø 150mm sphere
800lm / 2700K

PRODUCT SPECIFICATIONS

Maximum wattage: 10W
Provided with 2500mm cord set and
dimmer switch.
Product weight: 15kg

CLEANING INSTRUCTIONS

Before cleaning, lighting fixtures must be turned off and unplugged from mains electricity. Whilst cleaning please take care and use the gloves provided.

Black patinated: Use a dry soft dust cloth and gently go over marks until clean. The brass patina is achieved through an artisanal technique of applying pigments by hand during a hot patination process. Through this alchemic process, the brass is transformed whilst retaining the material's inherent qualities. It will mature and change overtime. The manner and speed in which it will change will depend on the environment, handling and the level and frequency of maintenance. Verdigris can also appear when the copper in the brass begins to oxidise.

Opaline Glass: Remove the opaline glass from the product. Using a lightly damp cloth, clean only the outside of the sphere. Only put the glass sphere back on the product once it is fully dry.
